Re: Park Central Towers

Dear Mr. Gibson:

On December 7th, 1981 I inspected the Park Central Towers building on Pershing and South Street to see if it conformed to our local water pollution ordinances.

After inspecting the water cooling towers on the roof of the building, all ordinances pertaining to water pollution discharges are apparently being followed.

If this office can be of any further assistance, please do not hesitate to call.

Sincerely,

J. D. Slaughter
Water Pollution Control Inspector II
Surveillance & Enforcement
